## SECTION A — Project Management Module

Fully featured 5-step wizard for creating, editing, and publishing real-estate projects with unit inventory

The Project Management Module is the flagship feature delivered in this sprint. It enables administrators to list new real-estate projects — from basic details and RERA compliance through media uploads, unit inventory management (including bulk CSV/XLSX import), configuration-level pricing, and final SEO-optimised publishing — all through a guided 5-step wizard with save-on-advance persistence.

## A1 — Database & Schema Changes

Three new Mongoose models; 11 new fields added to Project

| Project (extended)                                                                         |
|--------------------------------------------------------------------------------------------|
| ■ 30+ total fields covering all aspects of a real-estate project listing                   |
| ■ contactPerson, contactPhone — point-of-contact fields for project enquiries              |
| ■ pricePerSqft — price per square foot for quick buyer calculations                        |
| ■ maintenanceCharges — maintenance/other charges (text field)                              |
| ■ reraVerified (Boolean) — RERA compliance verification flag shown as badge                |
| ■ enablePriceRequest, enableCallback, enableBrochureDownload — lead capture toggle flags   |
| ■ whatsappCtaEnabled, enableSiteVisit — additional lead capture configuration toggles      |
| ■ projectType enum extended: residential / commercial / mixed / plotting (plotting is new) |
| ■ gallery capacity raised from 10 → 20 images                                              |
| ■ seoTitle, seoDescription, slug — full SEO & canonical URL support                        |
| ■ listingStatus — draft / active / archived lifecycle management                           |

| ProjectConfiguration (new model)                                           |
|----------------------------------------------------------------------------|
| ■ Parent reference: projectId — links to parent Project document           |
| ■ bhkType enum: studio / 1BHK / 2BHK / 3BHK / 4BHK / 4+BHK / penthouse     |
| ■ carpetAreaMin, carpetAreaMax — carpet area range in sq.ft                |
| ■ bathrooms, balconies, parking — integer count fields                     |
| ■ totalUnits — total unit count for this BHK configuration                 |
| ■ priceMin, priceMax — configuration-level price range                     |
| ■ floorPlans[] — array of Cloudinary image URLs, one per floor plan upload |

| ProjectUnit (new model)                                               |
|-----------------------------------------------------------------------|
| ■ Parent references: projectId + configurationId                      |
| ■ tower, block, floor, unitNumber — full physical address of the unit |
| ■ carpetArea, builtupArea — area measurements in sq.ft                |
| ■ facing, viewType — orientation and view type details                |
| ■ price — individual unit-level price                                 |
| ■ status enum: available / hold / booked / sold                       |
| ■ notes — free-text remarks field for internal use                    |

**A2 — API & Backend Changes**

17 new REST endpoints + upload middleware upgrades + server-side XLSX parsing

**Project Core (7 endpoints)**

|        |                            |                                                                 |
|--------|----------------------------|-----------------------------------------------------------------|
| GET    | /api/projects/admin        | Paginated admin list with search, status filter, builder filter |
| POST   | /api/projects              | Create new project in draft status (multipart/form-data)        |
| GET    | /api/projects/:id          | Fetch full project document including configurations            |
| PUT    | /api/projects/:id          | Update project fields + media uploads (multipart)               |
| DELETE | /api/projects/:id          | Permanently delete project and all related sub-documents        |
| PATCH  | /api/projects/:id/status   | Change listing status: draft / active / archived                |
| PATCH  | /api/projects/:id/featured | Toggle featured flag for homepage spotlighting                  |

**BHK Configurations (3 endpoints)**

|        |                                          |                                           |
|--------|------------------------------------------|-------------------------------------------|
| POST   | /api/projects/:id/configurations         | Add new BHK configuration to a project    |
| PUT    | /api/projects/project-configurations/:id | Update config fields + floor plan uploads |
| DELETE | /api/projects/project-configurations/:id | Remove a BHK configuration                |

**Unit Inventory (5 endpoints)**

|        |                                 |                                                   |
|--------|---------------------------------|---------------------------------------------------|
| GET    | /api/projects/:id/units         | List units with tower/floor/config/status filters |
| POST   | /api/projects/:id/units         | Add single unit to inventory                      |
| PUT    | /api/projects/project-units/:id | Update unit details or status                     |
| DELETE | /api/projects/project-units/:id | Remove a unit from inventory                      |
| GET    | /api/projects/:id/units/export  | Download full inventory as .xlsx file             |

**Bulk Import (2 endpoints)**

|      |                                     |                                                               |
|------|-------------------------------------|---------------------------------------------------------------|
| POST | /api/projects/:id/bulk-import-units | Import units from a JSON array in request body                |
| POST | /api/projects/:id/bulk-import-file  | Upload CSV or XLSX file — parsed server-side via xlsx package |

**Additional Backend Changes**

- Gallery upload middleware: max image count raised 10 → 20; total file limit raised 13 → 23
- New CSV/XLSX file filter middleware (csvXlsxFilter + bulkImportUpload) added to upload.js
- New npm dependency: xlsx package installed for server-side Excel and CSV parsing
- Bug fix: missing createdBy in adminProjectController.create — caused HTTP 500 on every project create
- Bug fix: admin role now bypasses listingStatus: active filter when listing units for draft projects
- Bug fix: slug field added to Zod project.update schema — was silently stripped before reaching controller
- Zod validation schemas extended for all 11 new Project fields across create, update, and list endpoints

### A3 — Admin Frontend: 5-Step Project Wizard

Save-on-advance — data persisted to backend at every step

The wizard uses a **save-on-advance** architecture: pressing Next saves the current step to the backend before navigating forward. The draft project survives page refreshes, Save as Draft works at every step trivially, and the edit flow pre-populates all fields from a single GET call.

| Step 1 | Creates project (draft)                                           | POST /api/projects                                           |
|--------|-------------------------------------------------------------------|--------------------------------------------------------------|
| Step 2 | Location, scale, BHK configs                                      | PUT /api/projects/:id POST PUT .../configurations            |
| Step 3 | Hero, gallery (20), master plan, brochure, floor plans per config | PUT /api/projects/:id (multipart) PUT .../configurations/:id |
| Step 4 | Price summary + per-config pricing                                | PUT /api/projects/:id PUT .../configurations/:id             |
| Step 5 | SEO, lead toggles, RERA verified, publish                         | PUT /api/projects/:id PATCH .../:id/status                   |

#### Shared Infrastructure

- ProjectFormContext — React Context: projectId, currentStep, goToStep, formData, updateFormData, isDirty
- WizardSidebar — Fixed 256px left panel matching admin nav width; step progress, % bar, support box
- WizardFooter — Sticky bottom bar: Back / Save as Draft / Next Phase with loading states
- Full edit flow: /admin/projects/:id/edit hydrates all wizard steps from GET /api/projects/:id
- Inline error banner on API failures; spinner on all async actions

## A3.1 — Step 1 — Basic Information

Admin Wizard — Step 1 — Basic Information

### Project Name

- Free text input; used to auto-generate SEO slug

### Builder / Developer

- Dropdown dynamically populated from GET /api/builders

### Contact Person & Phone

- Point-of-contact fields stored on the project document

### RERA Number + RERA URL

- Compliance fields; displayed as badge on project detail page

### Project Type pills

- Residential · Commercial · Mixed Use · Plotting (new)

### Project Status pills

- New Launch · Under Construction · Ready To Move

### BHK Configurations multi-select

- Studio / 1BHK / 2BHK / 3BHK / 4BHK / 4+BHK / Penthouse — multi-select pills

### On Next

- POST /api/projects → creates draft; projectId stored in context for all following steps

### Edit flow

- All fields pre-populated on /admin/projects/:id/edit mount

## A3.2 — Step 2 — Location & Configuration

**Left Sidebar:**

- GrihaNivas
- STEP 2 OF 5 40%
- Basic Details
- Location & Config**
- Media
- Pricing
- Review
- Need Help? Our support team is available 24x7. [Contact Support](#)

**Main Content Area: Location & Config**

Specify the project locality and available unit configurations.

**Pin Your Locality:**

Locality or Building Name e.g. Powai, Chandraoli

AREA: Powai CITY: Mumbai

STATE: Maharashtra PINCODE: 400076

COMPLETE ADDRESS: Enter complete address of the project

**Map:** A map showing the location with a red pin. Button: **Adjust Location**

**PROJECT SCALE:**

| TOTAL TOWERS | TOTAL FLOORS | TOTAL UNITS | LAND AREA (sq.ft) |
|--------------|--------------|-------------|-------------------|
| 4            | 32           | 520         | 2,75,000          |

**ADD BHK CONFIGURATIONS:**

| BHK   | CARPET AREA (sq.ft) | PRICE (Cr)       | AVAILABLE UNITS |
|-------|---------------------|------------------|-----------------|
| 1 BHK | 450 - 550           | ₹1.25 Cr onwards | 18              |
| 2 BHK | 720 - 850           | ₹2.35 Cr onwards | 24              |
| 3 BHK | 1050 - 1350         | ₹3.45 Cr onwards | 12              |

**Right Panel: Add / Edit Configuration**

BHK TYPE: Select BHK Type

CONFIGURATION TITLE: e.g. 2 BHK Premium

CARPET AREA MIN (sq.ft): e.g. 720 CARPET AREA MAX (sq.ft): e.g. 850

BATHROOMS: Select BALCONIES: Select

PARKING: Select AVAILABLE UNITS: e.g. 24

These details will be visible to users on the project page.

**Buttons:** BACK, NEXT PHASE, Cancel, Save Configuration

Admin Wizard — Step 2 — Location &amp; Configuration

### Location fields

- Locality / Area, City, State, Pincode, Full Address

### Map placeholder

- Pin icon + Adjust Location button — ready for Google Maps integration

### Project Scale

- Total Towers, Total Floors, Total Units, Land Area (sq.ft)

### BHK Configuration cards

- One card per selected BHK type with Edit and Delete actions

### Add Configuration button

- Opens ConfigSidePanel slide-in (400px)

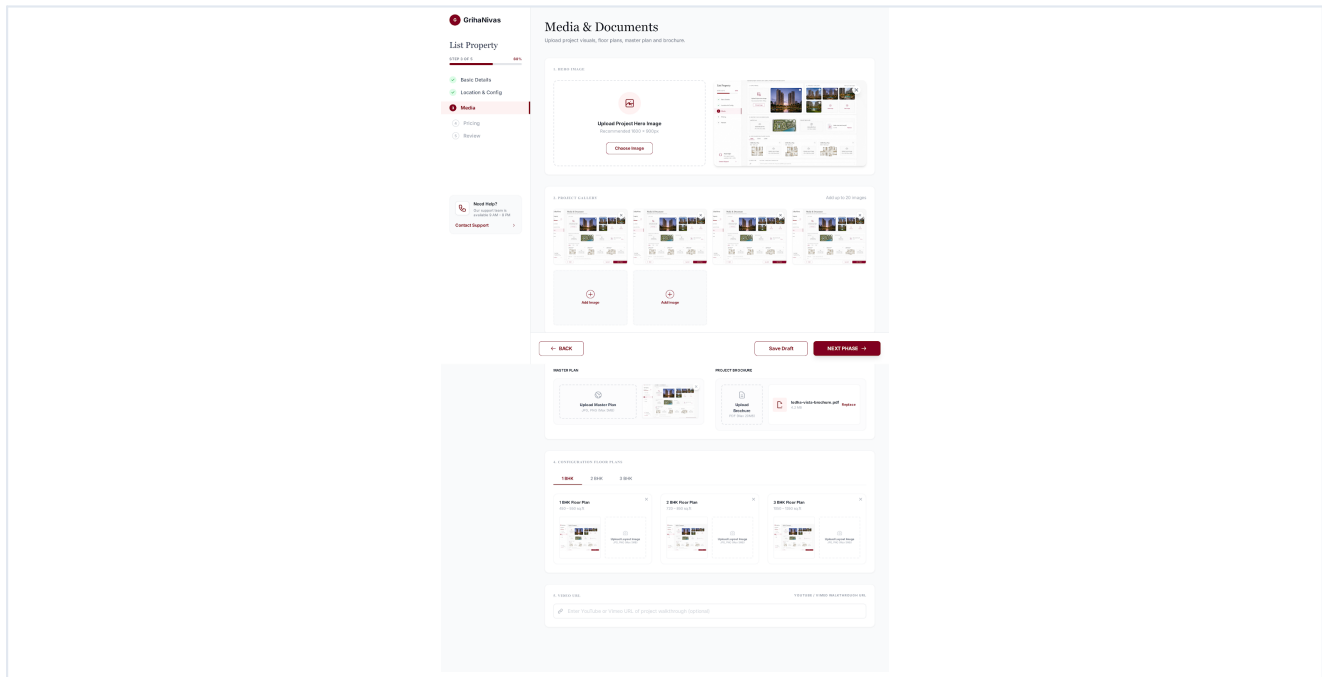

### ConfigSidePanel fields

- BHK Type select — maps UI labels to backend enum (1 BHK → 1BHK)
- Config Title, Carpet Area Min/Max, Bathrooms, Balconies, Parking, Available Units
- Save calls POST (new config) or PUT (existing) on `/api/projects/:id/configurations`

### Config delete

- Confirm dialog → DELETE `/api/projects/project-configurations/:id`

### A3.3 — Step 3 — Media & Documents

Admin Wizard — Step 3 — Media & Documents

#### Hero Image

- Drag-drop or click; instant preview via `URL.createObjectURL()`; delete button

#### Project Gallery

- Up to 20 images; thumbnail grid; per-image delete; removals queued and synced on Next

#### Master Plan

- JPG/PNG up to 5 MB; preview shown immediately

#### Project Brochure

- PDF up to 20 MB; shows filename + Replace button; uploaded on Next

#### Video URL

- Embedded video link for the project detail page

#### Configuration Floor Plans

- Tabbed by BHK type (one tab per configuration)
- Drag-drop zone per config; uploaded to each `ProjectConfiguration` document on Next
- Existing Cloudinary URLs shown in edit flow

#### Upload strategy

- All files staged locally; no API call until Next Phase — then multipart/form-data

## A3.4 — Step 4 — Pricing & Inventory

**Grihanivas**

**List Property**  
STEP 4 OF 5 80%

- Basic Details
- Location & Config
- Media
- Pricing**
- Review

**Pricing & Inventory**  
Set project price ranges and manage available units.

1. PROJECT PRICE SUMMARY

STARTING PRICE: ₹1.25 Cr. MAXIMUM PRICE: ₹4.25 Cr. PRICE PER SQ.FT: ₹18,500. MAINTENANCE / OTHER CHARGES: ₹3.55 /sq.ft / month.

Project price range can be auto-calculated from active configurations.

2. CONFIGURATION PRICING

**1 BHK**  
CARPET AREA: 450 - 550 sq.ft.  
PRICE MIN: ₹1.25 Cr. PRICE MAX: ₹1.55 Cr. AVAILABLE: 18. [Edit Pricing](#)

**2 BHK**  
CARPET AREA: 720 - 850 sq.ft.  
PRICE MIN: ₹2.15 Cr. PRICE MAX: ₹2.65 Cr. AVAILABLE: 24. [Edit Pricing](#)

**3 BHK**  
CARPET AREA: 1450 - 1550 sq.ft.  
PRICE MIN: ₹3.45 Cr. PRICE MAX: ₹4.25 Cr. AVAILABLE: 12. [Edit Pricing](#)

3. UNIT INVENTORY

TOWER: All Towers. FLOOR: All Floors. CONFIGURATION: All Configurations. STATUS: All Statuses.

[+ Add Unit](#) [Download Inventory](#)

| TOWER   | FLOOR | UNIT NO. | CONFIGURATION | CARPET AREA | FACING | PRICE     | STATUS    | ACTION                              |
|---------|-------|----------|---------------|-------------|--------|-----------|-----------|-------------------------------------|
| Tower A | 12    | 1201     | 2 BHK         | 820 sq.ft   | East   | ₹2.45 Cr. | AVAILABLE | <a href="#">✓</a> <a href="#">✗</a> |
| Tower B | 10    | 1002     | 2 BHK         | 720 sq.ft   | East   | ₹2.14 Cr. | AVAILABLE | <a href="#">✓</a> <a href="#">✗</a> |
| Tower C | 14    | 1403     | 3 BHK         | 1240 sq.ft  | West   | ₹3.95 Cr. | AVAILABLE | <a href="#">✓</a> <a href="#">✗</a> |

[View All Units](#)

4. BULK IMPORT UNITS

Drag & drop file here  
or click to upload  
100 MB Max Size

[Download Template](#) [Preview Import](#)

Validation Summary: 100 Passed, 4 Failed, 2 Pending.

Admin Wizard — Step 4 — Pricing &amp; Inventory

### Project Price Summary

- Starting Price, Maximum Price, Price per Sq.Ft, Maintenance/Other Charges

### Per-config Pricing cards

- Inline priceMin/priceMax edit per BHK configuration; saved to ProjectConfiguration

### Unit Inventory table

- Columns: Tower, Floor, Unit No., Config, Carpet Area, Facing, Price, Status

### Filter bar

- Tower / Floor / Configuration / Status dropdowns; calls listUnits with active filters

### Add Unit

- UnitFormModal — full form; POST /api/projects/:id/units on submit

### Edit / Delete unit

- Edit → pre-populated modal → PUT; Delete → confirm → DELETE

### Download Inventory

- Exports filtered view as .xlsx via GET /api/projects/:id/units/export

### Bulk Import Panel

- Drag-drop zone for CSV or XLSX file
- Sent to POST /api/projects/:id/bulk-import-file; server parses via xlsx package
- Returns { inserted, failed, errors[] } shown in Validation Summary cards
- Download Template button — serves unit-import-template.csv from /public/templates/

## A3.5 — Step 5 — Review & Publish

**Review & Publish**  
Verify project details before making it live on Grihanivas.

100% COMPLETION 100% LISTING STATUS: Draft

**1. PROJECT OVERVIEW**  
Project Name: Lodha Vista Residences  
Developer: Lodha Group  
Project Number: MHPS1600050022  
Location: Powai, Mumbai  
Possession: Dec 2028  
Status: Under Construction  
Price Range: ₹1.45 Cr - ₹4.25 Cr  
Configuration: 1BHK, 2 BHK, 3 BHK

**2. MEDIA REVIEW**  
Hero Image, Gallery, Master Plan, Brochure, Video

**3. CONFIGURATION SUMMARY**

| Unit | Area               | Price Range         | Bathrooms | Parking | Units | Floor Plan | Image |
|------|--------------------|---------------------|-----------|---------|-------|------------|-------|
| 1    | 450 - 550 sq.ft.   | ₹1.45 Cr - ₹1.75 Cr | 1         | 1       | 14    | 1BHK       |       |
| 2    | 750 - 850 sq.ft.   | ₹2.5 Cr - ₹2.8 Cr   | 2         | 1       | 24    | 2BHK       |       |
| 3    | 1100 - 1200 sq.ft. | ₹3.5 Cr - ₹4.25 Cr  | 3         | 1       | 10    | 3BHK       |       |

**4. INVENTORY SUMMARY**

| Unit Type | Total | Available | Hold | Booked | Sold |
|-----------|-------|-----------|------|--------|------|
| 1BHK      | 14    | 14        | 0    | 0      | 0    |
| 2BHK      | 24    | 24        | 0    | 0      | 0    |
| 3BHK      | 10    | 10        | 0    | 0      | 0    |

**5. LEAD CAPTURE SETTINGS**

- Enable Price Request: ☒
- Enable Callback: ☒
- Enable Brochure Download: ☒
- WhatsApp CTA: ☒
- Enable Site Visit: ☐

**6. SEO PREVIEW**

Meta Title: Lodha Vista Residences, Powai, Mumbai | 1, 2 & 3 BHK  
Meta Description: Premium 1, 2 & 3 BHK residences in Powai by Lodha Group. Modern amenities, lake views, excellent connectivity. Possession Dec 2028.

Buttons: Save as Draft, Publish Project

Admin Wizard — Step 5 — Review &amp; Publish

### Project Overview card

- Hero + full details grid; Edit button jumps back to Step 1

### Media Review

- Hero, gallery thumbnails, master plan, brochure, video; Edit jumps to Step 3

### Configuration Summary table

- BHK / Carpet Area / Price Range / Bathrooms / Parking / Units / Floor Plan per row

### Inventory Stats

- Total / Available / Hold / Booked / Sold unit counts

### Lead Capture toggles

- Enable Price Request · Callback Request · Brochure Download
- WhatsApp CTA · Enable Site Visit

### SEO fields

- SEO Title (70-char counter), SEO Description (160-char counter)
- URL Slug (75-char counter) — auto-generated from project name; editable

### RERA Verified badge

- Toggle button: Mark Verified / Mark Pending

### Listing Status

- Dropdown: Draft / Published

### PUBLISH PROJECT

- PATCH /api/projects/:id/status → redirects to /admin/projects on success

### Save as Draft

- Saves all Step 5 fields, sets status to draft, stays on page

## A4 — Admin Projects List Page

Route: /admin/projects

- Projects table: Name, Builder, Type, Status badge, Total Units, Price Range, Featured badge, Date
- Live search by project name
- Filter by Listing Status (All / Draft / Active / Archived)
- Filter by Builder / Developer
- Featured toggle per row — PATCH /api/projects/:id/featured
- Status change dropdown per row — PATCH /api/projects/:id/status
- Delete with confirmation dialog — DELETE /api/projects/:id
- Edit button → /admin/projects/:id/edit
- New Project button → /admin/projects/new
- Loading skeleton during API fetch; error state with retry option

SECTION B — Platform-Wide UI Changes

General improvements and content updates — June 2026

|   |                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|---|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | EMI Calculator — Downloadable EMI Report                                                                                                                                                                                                                                                                                                                                                                                                      |
|   | <ul style="list-style-type: none"><li>A fully branded downloadable report is now generated from the EMI Calculator page</li><li>Report header: EMI REPORT — Grihanivas with professional layout</li><li>Loan Summary section: Loan Amount, Interest Rate, Tenure</li><li>Computed outputs: Monthly EMI, Total Interest Payable, Total Amount Payable</li><li>Rendered in a clean HTML/PDF format matching Grihanivas brand identity</li></ul> |
| 2 | Footer — Social Media Links Updated                                                                                                                                                                                                                                                                                                                                                                                                           |
|   | <ul style="list-style-type: none"><li>YouTube channel link added to the footer social icons row</li><li>Instagram profile link added: <a href="https://www.instagram.com/grihanivas_sgp">instagram.com/grihanivas_sgp</a></li><li>LinkedIn icon removed from footer as per client direction</li></ul>                                                                                                                                         |
| 3 | Footer — Contact Information Updated                                                                                                                                                                                                                                                                                                                                                                                                          |
|   | <ul style="list-style-type: none"><li>Office address updated: Heera Panna Shopping Complex, Powai Hiranandani Garden, Mumbai – 400076</li><li>Contact email updated to: <a href="mailto:contact@grihanivas.in">contact@grihanivas.in</a></li></ul>                                                                                                                                                                                            |
| 4 | Footer — Brand Tagline Added                                                                                                                                                                                                                                                                                                                                                                                                                  |
|   | <ul style="list-style-type: none"><li>Powered by Shree Gurudev Properties tagline added to the footer across all pages</li></ul>                                                                                                                                                                                                                                                                                                              |
| 5 | Builder Page — Layout & Alignment Fix                                                                                                                                                                                                                                                                                                                                                                                                         |
|   | <ul style="list-style-type: none"><li>Builder directory page layout corrected — card alignment, grid spacing, and responsive behaviour improved</li><li>Visual consistency now matches the rest of the admin and public-facing pages</li></ul>                                                                                                                                                                                                |

## All 76 Development Tasks Complete

The Project Management Module and all June 2026 platform updates have been fully implemented and are ready for review and deployment.

**Phase 0 (UI) ✓ Phase 1 (API Wiring) ✓ Phase 2 (Backend) ✓ Phase 3 (New Fields) ✓**

Engineering Team: Rohit Huge & Vishal Jangid
